

CUSTOM-LOCK 2A

STANDING-SEAM ROOFING PANEL

Custom-Lock 2A is a structural, architectural roofing panel with a vertical standing-seam. It is mechanically seamed which provides extraordinary weather-tightness and resistance to wind uplift. You will find Custom-Lock 2A suitable for roof pitches as low as ¼:12. This durable panel can be manufactured at the jobsite to meet long-length requirements.

FEATURES

- 2" normal rib height
- 12-1/4" Standard - Other widths available by special order
- Structural design (can be installed on open perlins)
- Custom panel lengths
- Mechanical seam installation (double lock seams)
- Zincolume aluminum-zinc coated steel available in 24 or 22 gauge (special order)
- Aluminum alloys available in .032" or .040" (special order)
- Standard or custom Durapon 70 factory color finishes
- Special order copper in 16 or 20 ounce
- Custom panel face treatments (striations, stiffening ribs). Striations recommended to minimize oil canning.
- On-site manufacturing
- UL 580 Class 90 Wind Uplift rating (specific assembly required) & ASTM E1592 performance testing
- Air & water infiltration resistance to E1646 & E1680 (with field applied seam sealant)

NOTE: PANEL WIDTH IS NOMINAL - VARIANCE \pm 1/8"
